Please help Washington County open more venues. It's all about numbers - Washington County needs to perform more random testing of COVID-19 to prove to the Northeast Colorado Health Department that our low rate of residents with COVID-19 is in compliance with the variances that have been granted and for future variances. These variances will allow Washington County to have MORE people attend the Fair, attend entertainment venues, and open up businesses. Currently the County would like to test between 150 and 200 people. You do not need to be a town resident and you do not need to have symptoms.

Thank you for your participation!

Misty Peterson, County Administrator
